# MODERN VINTAGE VIBES

The delicate pattern of Azure Lace provides a subtle shimmer, adding a freshness to your bathroom space.

## Selkie® Board is today's waterproof wall panel solution for **bathrooms and showers.**

Manufactured in Scotland to the highest standards, each Selkie® Board is backed by our comprehensive 15 year guarantee and is available 'off the shelf\*\*' from leading bathroom and plumbing supply merchants throughout the UK.

Choose from 40 modern, fashionable designs which are simple to install and easy to clean. There's no need for grouting, which means germs and mould cannot gather and a quick wipe-down will have the waterproof board looking like new.

# COOL MONOCHROME TONES

Selkie® Board can provide a unique dimension to waterproof wall surfaces with high impact, strong, modern designs.

Set shows Tideland as splashback feature.

Go back to basics with bold, modern, solid shades and let Selkie® Board help create a simple but stunning bathroom space. Use the bold colour as an added feature behind the wash hand basin to add strength to the design.

Main set shows Blue Turquoise in shower cubicle and behind wash hand basin. Insets show Lime Zest and Pomegranate.

# IMITATE BOLD GLASS

# ORIENTAL MINIMALISM

Put Selkie® Board at the heart of your design and the results are only limited by your imagination.

Main Set shows 3 panel installation of Tropical Reed.

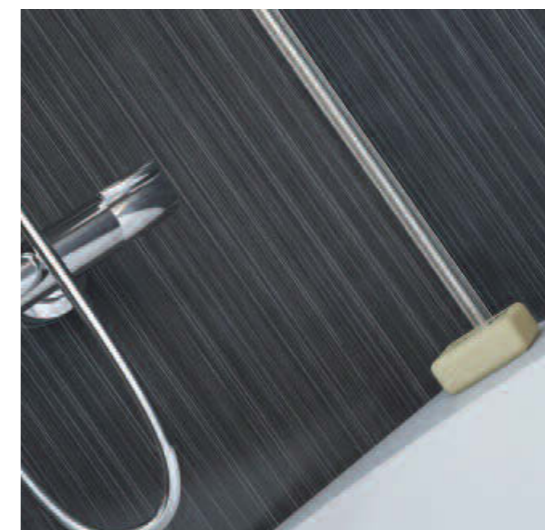

# CREATING VICTORIAN SPLENDOUR

A modern twist is possible within a traditional design setting with the use of White Damask repeating patterns.  
Main set shows White Damask to half height.

## LINEAR EFFECTS

Create a stylish, but practical family bathroom with striking modern lines. Craft a fully waterproof wall with the use of Selkie® jointing profiles or tongue & groove\* for a smooth overall finish.

All sets show Lynx Dimension Gloss. Main set shows 'End Cap' profiles on splashback. Inset shows brushed aluminium internal corner profile.

## URBAN STYLING

Create a modern city loft appearance with the added dimension and texture of stone like surfaces - strong, architecturally simple design.

Let Selkie® Board help create a truly unique finish.

Main set features Milano as splashback, with Concrete within main shower.

# UK MANUFACTURING

Manufactured in Glasgow within a modern 37,000 sq ft factory,

Selkie Board utilises the very latest laminate fabrication technology, including advanced CNC machinery.

The combination of skill, experience and modern equipment ensures that all work is produced to the highest standards, which is reinforced by our ISO accreditations. An area in excess of 2,000 sq ft is reserved for completed orders and 'off the shelf' items, allowing for speedy collection or ready for delivery throughout the UK.

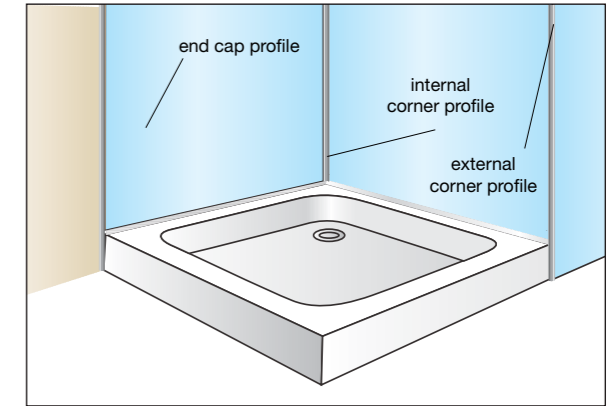

We strive for quality and safety during all aspects of manufacture, while with ISO 14001 accreditation we really do care about the environment, with the use of material from sustainable sources for all our products. 98% of our waste is recycled.

## Easy to install

Installation is quick and easy, saving money in comparison to traditional methods. Corner profiles, end caps, shower tray seals and colour matched sealants (when using 'tongue and groove' joints for the perfect finish) are all available.

The range of Selkie® silicone is available in clear and white, together with Selkie 'GRIP ALL' adhesive.

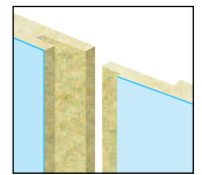

Typical Corner Sited Installation

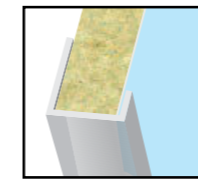

Selkie® Board can be supplied complete with a range of required finishing trims; internal corner, external corner, end cap, quad end cap and H section (for joining of square edged boards). All profiles are available in satin aluminium, polished silver, black or white finishes.

## Tongue & Groove

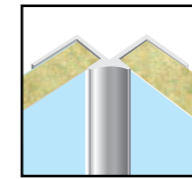

Tongue and Groove joining is used where a tight, solid seam is required between separate Selkie® Boards. It provides an exceptionally accurate finish and with the correct use of sealant provides a water-tight joint.

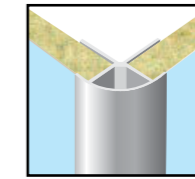

## HOW IT WORKS

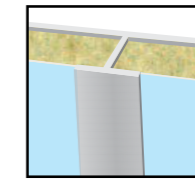

End cap

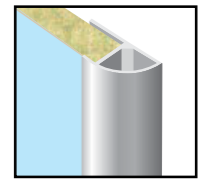

Internal corner profile

External corner profile

H Section

Quad end cap profile

## Technical Specification

Height	2420mm
Width	1200mm (face size)
Thickness	11mm
